N=001 — Apex Protocol initial scaffold

- **Date:** 2026-05-03
- **Commander:** Wrote CURRENT_N.md. Intent: one-shot personalized supplement + nutrition recommendation product with live-demo hero. Differentiation = evidence tier per pick, interaction warnings, goal-conflict detection, no email gate.
- **Architect:** Wrote S1_LOCKED.md. Locked Next.js App Router + TS + Tailwind. No auth, no DB, no external APIs at runtime. Deterministic rules engine. 14 minimum supplement entries. Locked color palette (ink/paper/lime/clinical-orange). Locked file tree (22 files). Acceptance criteria defined.
- **Sentinel:** PENDING
- **Operator:** PENDING
- **Watcher:** PENDING
- **Judge:** PENDING
- **Status:** Awaiting Sentinel gate.
- **Next direction:** Sentinel reads S1_LOCKED.md and emits GATE: OPEN or GATE: BLOCK.
